

HOW TO FREEZE BUSH-N-VINE STRAWBERRIES

Pick red, ripe berries. Wash with caps on and drain in colander. Remove caps and slice into bowl. Sweeten one gallon of berries with 1/2 to 3/4 cup of sugar. Allow sugar to melt approximately 15 minutes. Carefully stir berries and sugar, then place in freezer containers. Berries are best eaten within one year of freezing. Also, eat berries before they thaw completely.
